Double Wall Glass Mugs

Double-wall glass provides outstanding insulation, maintaining the ideal temperature of your beverages. Hot drinks stay warm, and cold ones remain refreshingly cool, all while preventing the outer surface from becoming too hot or cold to touch.

A handle offers a secure and easy-to-hold grip, allowing you to enjoy your drink without the fear of slipping. Whether you're sipping a morning coffee, an afternoon tea, or a cold smoothie, the handle - equipped double wall glass mugs make every drinking experience more convenient and enjoyable.
